

Chapter 1: Introduction

What are 4 GLs	1
Functions of DYL-280	2
DYL-280 Advantages	3
Types of Commands	4
Data Types	5
Program Layout	6
FILE Organization	7
General Rules	8
Automatic Cycle	9
FILE Command	10

Chapter 2: I/O and Reporting

Record Description	1
LIST Statement	3
Fixed Print Position Reporting	5
Report Statement	7
Title Statement	8
TITLE and FOOTING STATEMENTS	9
Option Command	16

Chapter 3: DYL-280 Statements

Mathematical Manipulation	1
Arithmetic Operations	2
MOVE Statement	4
MOVE NUMERIC Statement	5
MOVE ZONE Statement	6
MOVE Offset Statement	7
IF CONDITION Statement	8
Relational Operators	10
ADDITIONAL IF Constructs	18
Combining Conditional Expressions	20
dataname Statement	20
Test for Numeric Value	22
Numeric Check	23
Test for Bits On	24
ACCEPT/REJECT Statements	25
GOTO Statement	26
STOP Statement	27
PERFORM Statement	28
DO Statements	29
CASE Statement	30
READ Statement	31
WRITE Command	32
Match/Update Example	33
CALL Statement	34

Chapter 4: Advanced Statements

TRANSLATE Statement	1
EDIT Statement	3
EDIT	4-6
Additional Work Areas	7
CONTROL Statement	8
Predefined Variables	9

Chapter 5: Sorting

SORT Command	1
On End of Sorting	16
Indexes	17
CALL Statement	18

Chapter 6: Utilities

FREEZE Option	1
COPY Utility	2
COPY Commands	5
Qualification	7

Chapter 7: PDS Processing

Partitioned Datasets	1
PDS Support Under DYL-280 II	2
FILE filename	4
WRITEDIR ADD Keyword	6

Chapter 8: Match/Merge

MATCH AND MERGE	1
IF ADVANCED file1	2

Chapter 9: Tables and Arrays

Table and Array Handling	1
Random Replacement in a TABLE	2
Deleting a TABLE	3
Random Retrieval from a TABLE	4
Sequential Retrieval from a TABLE	5
Sequential Search of a TABLE	6
Sorting a TABLE	7
Array	8
Loading an ARRAY	9
Retrieval from an ARRAY	10
