Subject:	DYL-280 Training

Hi David,

Please let me know if you could assist me with the opportunity I have outlined below. Thanks.

I have a client who is interested in your DYL-280 training to be held on-site for 10-12 programmers in Oklahoma City, OK. The tentative dates they are looking for are 9/19-9/20. I am looking for what type of pricing you could come up with and if you would even be authorized to sell or contract your instructor(s) to hold this training since I don't have anyone here at CA who is qualified to train on DYL-280. Please let me know as soon as possible through email or call me directly at xxx-xxx-xxxx. Thank you for your time.
