

**A**

Alias Queues .....	3:5
All Context - Setting .....	7:24
Application Data Conversion .....	2:7, 8:15
Application Programming .....	1:14
Applications: Message Queuing .....	1:6
Attribute Values: Getting and Setting .....	5:12

**B**

Backout Method .....	9:7
Browse Queue: Getting the First Message - Example .....	8:8
Browsed Message - Removing .....	8:17
Browsing All Messages - Example .....	8:11
Browsing All Messages in the Queue .....	8:10
Browsing Messages in Logical Order .....	8:17

**C**

Call Interface .....	1:15
Channel .....	3:8
Client Channel Definition Table - Connection: Example .....	6:9
Client Channel Definition Table - MQI Channel .....	6:8
Cluster .....	1:4
Cluster Queues .....	3:5
Commit Method .....	9:8
Configuration Options .....	4:6
Connecting and Disconnecting - Example .....	6:4
Connecting - Example .....	6:4
Connection .....	6:3
Connection - Determination .....	5:8
Connection Modes .....	5:7
Connection Pooling .....	5:13
Control Information .....	2:5
Conversion - Receiving Queue Manager .....	2:7
Conversion - Sending Queue Manager .....	2:7
Correlation Identifiers .....	7:16
correlationId .....	7:5
Cross-platform Data .....	8:15

**D**

Data and Log Values .....	4:5
Data Integrity .....	1:8
Data Values .....	4:5
Datagram .....	2:2
Dead-letter - Undelivered-message .....	3:8
Default Queue Manager - Connection .....	6:3
Direct Connections - (No) Among Programs .....	1:6
Disconnecting - Example .....	6:4
Dynamic Queues .....	3:5, 3:7

**E**

EBCDIC Newline Characters Conversion ..... 8:15  
 Environmental Variables ..... 5:4  
 Error Handling ..... 5:11  
 Event ..... 3:8  
 Event-driven Processing ..... 1:7

**F**

FIFO - First in, First out ..... 8:16  
 FIFO - Sequence of Queues ..... 8:16  
 Format: Control Information and Data ..... 2:5

**G**

Get a Message - messageId and correlationId ..... 7:6  
 Get Group Messages - Example ..... 7:19  
 Getting a Specific Message ..... 8:13  
 Group Message - Get Message Options ..... 7:17  
 Group Message Information ..... 7:18  
 Group Put Program - Example ..... 7:13  
 GroupId ..... 7:12

**H**

Handling Program Errors ..... 3:9

**I**

Identity Context ..... 2:11  
 Identity Context Information ..... 7:23  
 Identity Context - Setting ..... 7:24  
 Initiation ..... 3:7  
 Installation and Configuration - WebSphere MQ ..... 5:4  
 Interfaces - WebSphere MQ Base Java Classes ..... 5:15  
 Intra-group Queuing ..... 1:5

**J**

Java Class Library - WebSphere MQ Classes ..... 5:6  
 Java Connection - WebSphere MQ Classes ..... 6:1  
 Java Interface - WebSphere MQ Classes ..... 5:6  
 Java Programming Interface - WebSphere MQ Classes ..... 5:5

**L**

Listener Option ..... 4:7  
 Local Queue - Creation ..... 4:10  
 Local Queue Types ..... 3:6  
 Locally Determined Errors ..... 3:9  
 Log Values ..... 4:5

**M**

Message	1:2
Message Channel Agent	1:3
Message - Confirm Being Sent	4:13
Message Context	2:11
Message Control Information - Format	2:5
Message Data	2:5
Message Descriptor	1:2
Message Group Hierarchy - Group	7:10
Message Group Hierarchy - Logical Message	7:11
Message Group Hierarchy - Segment	7:11
Message Groups	7:10
Message Groups and Segments	7:13
Message Handling	5:10
Message - Putting on the Queue	4:12
Message - Putting Out	7:1
Message Persistence	2:9
Message Persistence - Performance	2:9
Message Priorities	2:8
Message Priority	1:8
Message Queue	1:3
Message Queue and Queue Manager	1:3
Message Queue Interface - Component Functionality	5:1
Message Queuing	1:1
Message Queuing - Applications	1:6
Message Queuing - Benefits	1:9
Message Retrieval Option	8:13
Message Types	2:2
messageld	7:5
Messages and Correlation Identifiers	7:16
Messages - Backing Out	2:10
Messages - Clearing	4:15
Messages - Delivery Failure	2:9
Messages: Design	1:11
Messages: Discarded	1:11
Messages in a Queue	8:16
Messages Larger than 4 MB	8:14
Messages on Queues - Physical or Logical Ordering	7:12
Messages - Retrieving from a Queue	8:1
Messages - Uncommitted	8:16
Messages: Waiting	1:12
Model and Dynamic Queues	3:5
Model Queues	3:5
MQ Explorer - Example	4:9
MQ Explorer - Function	4:1
MQ Explorer Option	4:8
MQ Explorer - Starting	4:2
MQ Java Libraries Location	1:16
MQ Libraries	5:4
MQI Call Failure	3:10
MQI Calls	5:1
MQI Channel - Client Channel Definition Table	6:8

MQMessage Class .....	8:5
MQMessage - writeXXX methods .....	7:2
MQQueueManager Class Methods .....	8:2
MQSC Commands .....	4:16
MQSC Commands - Examples .....	4:17
MQSC Commands - Rules .....	4:16
MQTMC2 Structure .....	10:8
Multi- and Cross- Platform Data .....	8:15
Multi-platform Data .....	8:15

**O**

Object Handles .....	6:3
Opening the Queue - Options .....	8:4
Operating System Platforms .....	2:1
Origin Context .....	2:12

**P**

Package: com.ibm.mq Constants .....	6:1
Passing All Context .....	7:24
Priority Sequence - Queues .....	8:16
Processes - Accessing .....	5:9
Program Errors - Handling .....	3:9
Put a Message - messageId and correlationId .....	7:5
Put Message Options .....	7:3
Put/Get with Message Id - Example .....	7:7
Putting Out a Message .....	7:1
Putting Out a Message - Example .....	7:4

**Q**

Queue Attribute - IndexType .....	8:13
Queue Attributes .....	3:6
Queue Creation - accessQueue Options .....	8:3
Queue - Getting a Specific Message .....	7:16
Queue Manager .....	1:3, 2:10, 10:1
Queue Manager - Creation .....	4:4
Queue Manager - Operations .....	5:9
Queue Manager and Local Queue Types .....	3:6
Queue Manager and Triggers Events .....	10:1
Queue Manager Attributes .....	3:2
Queue Manager Connection .....	6:2
Queue Manager Information - Retrieving: Example .....	6:6
Queue Manager Methods Retrieving Information .....	6:5
Queue Manager, Receiving - Conversion .....	2:7
Queue Manager, Sending - Conversion .....	2:7
Queue Manager Types .....	3:6
Queue Managers .....	3:2
Queue - Opening the Queue - Options .....	8:4
Queues .....	3:4
Queues - Accessing .....	5:9
Queues - Model and Dynamic .....	3:5
Queues and Application Support .....	3:4
Queues and Processes - Accessing .....	5:9
Queues in Priority Sequence .....	8:16

Queue-sharing Group ..... 1:5  
 Queuing ..... 1:2

**R**

readStringOfByteLength Method ..... 8:6  
 Recovery Support ..... 1:8  
 Reply Messages ..... 2:3  
 Report Message Creation ..... 3:11  
 Report Messages ..... 2:4  
 Report Messages - Problem Determination ..... 3:11  
 Report Messages - Receiving ..... 3:12  
 Report Messages - Requesting ..... 3:12  
 Report Messages - Requesting and Receiving ..... 3:12  
 Reply-To Queue ..... 2:10  
 Request Messages ..... 2:3

**S**

Security ..... 1:8  
 Self-contained Programs ..... 1:7  
 Sequence of Queues in FIFO - First in, First out ..... 8:16  
 Setting All Context ..... 7:24  
 Shared Queue ..... 1:5  
 Shared Queue, Queue-sharing Group, and Intra-group Queuing ..... 1:5  
 Shared Queues ..... 3:5  
 Specific Message - Getting ..... 7:16, 8:13  
 Sync Program ..... 9:3  
 Syncpoint and Unit of Work ..... 9:2  
 Syncpoint/Backout Methods ..... 6:3  
 System Command ..... 3:8

**T**

Time-independent Communication ..... 1:7  
 Tracing - WebSphere MQ Base Java Programs ..... 5:14  
 Transmission Queues ..... 3:7  
 Trigger Events - Controlling ..... 10:6  
 Trigger Messages - Format ..... 10:7  
 Trigger Monitor ..... 10:4  
 Trigger Program ..... 10:9  
 Triggering ..... 10:2  
 Triggering Components and Interaction ..... 10:2  
 Triggering - Prerequisites ..... 10:4  
 Triggering - WebSphere MQ Automatic Program Startup ..... 1:12  
 Triggers Events ..... 10:1

**U**

Uncommitted Messages ..... 8:16  
 Unit of Work - Messages and Queues ..... 9:1

**W**

WebSphere MQ API: Verbs ..... 1:17

WebSphere MQ Automatic Program Startup ..... 1:12

WebSphere MQ Base Java Classes and Interfaces..... 5:15

WebSphere MQ Base Java Programs - Tracing..... 5:14

WebSphere MQ Base Java - Writing Programs ..... 5:7

WebSphere MQ Classes for Java..... 1:14, 5:2

WebSphere MQ Classes for Java Class Library..... 5:6

WebSphere MQ Classes for Java Connection ..... 6:1

WebSphere MQ Classes for Java Interface..... 5:6

WebSphere MQ Classes: Java Message Service ..... 5:3

WebSphere MQ Classes: Java Programming Interface ..... 5:5

WebSphere MQ Client ..... 1:5

WebSphere MQ Messages ..... 2:1

WebSphere MQ Objects ..... 1:10

WebSphere MQ Objects - Functionality..... 3:1

WebSphere MQ Programming Services..... 6:2

WebSphere MQ Programming Services: Queue Manager Connection ..... 6:2

WebSphere MQ Properties ..... 4:3

WebSphere MQ Reports..... 1:13

Writing Programs - WebSphere MQ Base Java ..... 5:7
